

2008/2009 BUYER'S GUIDE DIRECTORY ASSISTANCE

RETAIL STORES/CATALOGS USED EQUIPMENT

Starts of Page 11: We are adding two new sections — Retail Stores/Catalogs, for companies that cover a diverse selection of products, as well as Used Equipment. Please refer to the category symbol (M), (D) or (S) to find the company's detailed information.

PRODUCTS

Begins on Page 11: Products are broken down into two sections —harvesting and sawmilling. Each product category is further broken down by manufacturers and/or distributors located throughout the Western timber industry market. Once you've located the category that best describes the product you require, you should note the company names listed, and then turn to the MANUFACTURERS (M) or DISTRIBUTORS (D) section for complete contact information. YOU'LL FIND MANY DISTRIBUTORS LISTED UNDER THE MANUFACTURERS LISTING.

MANUFACTURERS (M)

Begins on Page 29: You will find more detailed information about the MANUFACTURERS that offer the product you require. In addition to the address, telephone, fax, email, website, brand names, you may also want to note the name of the authorized dealer/distributor in your area, and turn to the DISTRIBUTORS section for more localized contact information. MANUFACTURERS who DISTRIBUTE their own products are identified as (M/D)

DISTRIBUTORS (D)

Starts on Page 52: DISTRIBUTORS are listed by state, alphabetically by company name with branch locations (s). Here you will find the address, telephone, fax, email, website, and major lines of forestry products and services represented by the forestry dealer/distributor located in your geographic area.

SERVICES (S)

Beginning on Page 65: With over 75 categories, this section gives you increased exposure for financial, consulting, training, repair and other vital supporting services. The SERVICE providers are listed alphabetically including address, telephone, fax, email, website and major services located in your geographic area.

GENERAL STORE
RETAIL • CATALOGS • USED LOGGING & SAWMILLING EQUIPMENT
