Logging & Sawmills

# WEST

# Celebrating over 30 Years

## Serving America's Largest Mechanized Logging and Wood Processing Market

TimberWest Magazine is the #1 read timber magazine among Western forestry professionals since 1975. It provides reliable, pertinent and timely information to assist loggers and mill personnel in their business decisions. TimberWest Magazine is delivered to 10,000 targeted readers throughout the Western United States, which includes the top timber producing states in the Nation.

This is our 33rd year of proudly serving the forestry industry of the Western USA. Over the years we've continued to improve the content, color and graphic look of our publication. We've also increased our circulation/readership to include: Arizona, New Mexico and Colorado. Your message now reaches loggers and mill personnel in every Western timber State.

TimberWest is read by decision-makers throughout the industry because it includes the latest industry news, profiles on logging and sawmilling operations, technology updates, new product, guest columns, show information and much, much more...

Our goal is to bring the best technical and editorial content to a growing readership!

*Advertising in TimberWest Magazine is an effective, cost-efficient way to reach and influence the decision makers of the Western United States timber industry; which is the largest forestry market in the USA.*
